**Technology & Energy
Sector Exhibition**

02 - 06 November 2020

Eswatini Virtual Trade Fair

About:

The world has changed due to COVID-19, resulting in an increased usage of technology based platforms for doing business. The Eswatini Virtual Trade Fair offers business an online market place for product exhibition, business linkages and trade.

The first virtual exhibition to be held on the 02–06 November 2020 will focus on the ICT and energy sectors, showcasing the latest developments in technology, innovation, renewables, and sustainable energy for the future.

Virtual Exhibition:

Key Features of the Virtual Exhibition Platform:

- Virtual 3-D (look) Exhibition Booth
 - Product activations and demos
 - Webinars & Live Streaming
- On-demand Video & File uploads / downloads
- 1:1 (or Group) Virtual Meetings and Video calls
 - Customer & Exhibitor Chat Functionality
 - Online visitor registration and profiling

Eswatini Virtual Trade Fair

Benefits:

Benefits of a Virtual Trade Fair:

- Extended exhibitor reach to clients 24/7 across the country, Africa and into global markets.
 - Clients / Consumers have no access limitations related to travelling distances or physical location.
- Intelligent matchmaking capabilities due to online client registration which gives exhibitors information about the customer beforehand.
- Highly cost effective and efficient when compared to traditional exhibitions.
- Reduction in costs such as accommodation, travel expenses, overtime claims and other logistics.
- Exhibition material available online for 30 days, as platform remains live beyond actual exhibition days.
- Virtual exhibition booths far cheaper than physical exhibition space.
